Tim je uspješno završio task unit testiranja. Svaki član tima aktivno je doprinio testiranju funkcionalnosti koje su implementirali, pritom kreirajući određen broj testova. Takođe, prilikom testiranja koristili smo data driven pristup u dva formata - XML i CSV. Svi data driven testovi označeni su podebljanim fontom u spisku testova za svakog pojedinačnog člana tima. Rezultati testiranja pokazuju da je pokrivenosti aplikacije od strane unit testova 93.7%.

Prikaz pokrivenosti koda:
